SUMMARY

I am a Computer Science student at Darshan University specializing in full-stack web development. With a solid foundation in modern frameworks and technologies, I am skilled in creating user-friendly applications. My passion lies in developing efficient solutions and continuously enhancing my technical abilities through practical experience.

PROJECTS

RMTS - Rajkot Mass Transport Service (LIVE)

https://rmts.somee.com

Rajkot Mass Transport Service application to improve public transport accessibility.

- Developed the Rajkot Transport Management System (RMTS) using **ASP.NET Core (MVC & Web API)** and **SQL**, providing real-time information on nearby bus stops within a 3 km radius, route suggestions, and detailed bus schedules.
- Integrated user-centric features including an all-routes view, feedback module, and complaint management system, enhancing public transport accessibility and user experience, achieving an average of 2,000 visits every 28 days.

Exam Portal (LIVE)

https://exam-portal-flame.vercel.app

An application for conducting online exams, result management, and user role administration.

- Developed an Online Exam Portal using **React**, **Node.js**, and **SQL** with role-based access for students, teachers, and admins.
- Included features such as online MCQ exams, result viewing for students, exam creation, and result management for teachers.

Portfolio (LIVE)
